Hiring Team

Arctic Wolf

Waterloo, ON

Re: Network & Technology Operations Analyst – Intern Application

Dear Arctic Wolf Hiring Team,

I am writing to express my interest in the Network & Technology Operations Analyst Intern position for Fall 2025. As a Computer Programming and Analysis student at George Brown College, currently entering my fifth semester, I am eager to contribute to a team that is redefining cybersecurity while gaining hands-on experience in technical support and network operations.

Through my academic journey, I've developed a solid foundation in IT systems, troubleshooting, scripting, and networking concepts. My coursework in Linux, web application development, and systems analysis has strengthened my ability to investigate, document, and resolve technical issues—skills I'm excited to apply in a real-world, customer-facing environment. Additionally, I'm actively working toward completing my Network+ certification to further deepen my knowledge of DNS, DHCP, and VLAN configurations.

Arctic Wolf's mission to end cyber risk and your collaborative, inclusive culture greatly inspire me. The opportunity to work on impactful projects with seasoned professionals while supporting cutting-edge security services aligns perfectly with my career goals in cybersecurity and network operations.

Thank you for considering my application. I'd welcome the opportunity to discuss how my background and passion for IT can support Arctic Wolf's continued success. I'm available at your convenience and can be reached at lucastcriscuolo@gmail.com or +1 437-254-6527.

Warm regards,

Lucas Tavares Criscuolo
