Hiring Manager
Quickplay
Toronto, ON

Re: Trainee, Data Products (Co-op/Intern) – Product Innovation

Dear Hiring Manager,

I am excited to apply for the Trainee, Data Products Co-op/Intern position at Quickplay. Currently pursuing an Ontario College Advanced Diploma in Computer Programming and Analysis at George Brown College, I have developed a strong technical foundation in software development, data structures, and database management. Quickplay's leadership in OTT video technology and its impressive portfolio in global entertainment resonate deeply with my passion for innovative media solutions, and I am eager to contribute to your Product Innovation team.

My academic journey has afforded me hands-on experience through projects such as developing a Smart Inventory Management System using ASP.NET Core MVC and PostgreSQL, where I honed my skills in data collection, analysis, and secure application deployment. Additionally, my collaborative work on a command-line Gomoku game project refined my problem-solving skills and reinforced my ability to work effectively both independently and as part of a team. I am proficient in programming languages including Java, C#, and have a foundational understanding of Python—all of which enable me to adapt quickly in dynamic technical environments.

At Quickplay, I am eager to assist in designing and implementing data collection systems and scalable pipelines, and to contribute to the development of predictive data models and compelling visualizations. I am confident that my strong analytical skills, attention to detail, and collaborative mindset will enable me to make a tangible impact on your data products and support your strategic initiatives in global entertainment technology.

Thank you for considering my application. I have attached my resume and unofficial transcript in one PDF as requested. I look forward to the opportunity to discuss how my background and skills can help Quickplay continue to lead and innovate in the OTT space. Please feel free to contact me at +1 437-254-6527 or via email at lucasteriscuolo@gmail.com.

Sincerely,

Lucas Tavares Criscuolo
