Hiring Team

GN Canada

Re: Part-Time Data Analyst (CPG) Application

Dear GN Canada Team,

I'm excited to apply for the Part-Time Data Analyst position at GN Canada. As a Computer Programming and Analysis student entering my fifth semester at George Brown College, I'm eager to gain hands-on experience transforming data into business insights that drive real impact especially in a fast-paced startup like yours.

I have a strong foundation in data analysis, including coursework in database management and analytics, and I'm highly proficient with **Excel and Google Sheets** (pivot tables, VLOOKUP, conditional formatting, etc.). I've worked on academic projects involving reporting, dashboard creation, and data-driven decision-making, and I'm eager to apply those skills in a professional setting. My interest in consumer behavior and tech-driven business solutions makes this role a perfect fit.

The opportunity to work remotely while contributing to a growing company's success is incredibly appealing. I'd welcome the chance to support GN Canada's data operations and help inform strategic decisions with clean, insightful analysis.

Thank you for your time and consideration. I look forward to the opportunity to contribute to your team.

Sincerely,

Lucas Tavares Criscuolo
