Ada
Software Engineering Intern
Canada

Dear Ada,

I am writing to express my interest in the Software Engineering Intern position at Ada, as advertised on LinkedIn. With a solid foundation in computer programming, experience in dynamic roles requiring adaptability, and a strong academic background in Computer Programming and Analysis at George Brown College, I am excited about the opportunity to contribute to your innovative team.

During my tenure at Dgs Staffing Agency and Sword, I honed my problem-solving, multitasking, and team leadership skills. These roles demanded quick thinking, effective communication, and a client-centric approach—qualities I am eager to apply within a technology-driven environment like Ada. My ability to coordinate with cross-functional teams and provide top-tier customer service illustrates a keen attention to detail and adaptability, traits that align well with the collaborative culture at your organization.

In parallel with my professional experience, I have cultivated strong technical capabilities through coursework in Object-Oriented Programming, Database Management, and Full-Stack Development. This combination of practical and technical expertise ensures I am prepared to tackle complex projects, learn from seasoned professionals, and make meaningful contributions from day one.

I am enthusiastic about joining Ada because of [a specific aspect of the company that appeals to you, such as its culture, mission, or projects]. I am confident that my unique blend of technical knowledge, interpersonal skills, and commitment to continuous learning will be a valuable asset to your team.

I welcome the opportunity to further discuss how my skills and experiences can benefit [Company Name]. Thank you for considering my application. I look forward to the possibility of contributing to the success of your organization.

Warmest regards,
Lucas Tavares Criscuolo
