Hiring Manager

BMO

Toronto, ON

Re: Cybersecurity Analyst, Summer 2025 (Co-op/Internship)

Dear Hiring Manager,

I am writing to express my strong interest in the Cybersecurity Analyst Co-op/Internship position at BMO as advertised. Currently pursuing an Ontario College Advanced Diploma in Computer Programming and Analysis at George Brown College, I have developed a solid foundation in software development, data analysis, and security practices through hands-on projects and coursework. I am excited by the prospect of contributing my technical skills and analytical abilities to BMO's dynamic team and innovative campus program.

In my academic journey, I have successfully designed and implemented projects such as a Smart Inventory Management System using ASP.NET Core MVC and C#. This experience not only honed my abilities in building secure, scalable applications but also provided me with practical exposure to user authentication, role-based access control, and AJAX-driven interactivity—all of which are vital in maintaining robust information security processes. My collaborative approach, attention to detail, and problem-solving skills have been further reinforced by my experience in both team projects and diverse roles within customer-focused environments.

I am particularly drawn to this opportunity at BMO because of your commitment to developing early talent through programs like the BMO Social Squad and BMO Academy. I am eager to leverage my technical background, strong analytical skills, and passion for cybersecurity to support BMO's information security initiatives. I am also in the process of pursuing relevant security certifications, which I believe will further enhance my ability to contribute effectively to your team.

Thank you for considering my application. I look forward to the opportunity to discuss how my academic achievements and project experiences align with the goals of BMO's cybersecurity team. I am available at your convenience for an interview and can be reached at +1 437-254-6527 or via email at lucascriscuolo@gmail.com.

Respectfully yours,

Lucas Tavares Criscuolo
