PROFESSIONAL SUMMARY

Motivated IT co-op candidate pursuing an Ontario College Advanced Diploma in Computer Programming and Analysis at George Brown College. Demonstrates hands-on expertise in web application development and software design through projects using ASP.NET Core MVC, C#, and Java. Adept at problem-solving, collaborative teamwork, and delivering innovative technical solutions, with a strong commitment to enhancing user experience and system reliability.

EDUCATION & RELEVANT PROJECTS

George Brown College, Toronto, ON

Ontario College Advanced Diploma in Computer Programming and Analysis

Expected Graduation: April 2026 • GPA: 3.53 Key

Projects:

- **Smart Inventory Management System (ASP.NET Core MVC)**
Developed a comprehensive web-based inventory management solution for small businesses as part of a two-phase assignment. Implemented features including:
 - **Inventory Management:** Created pages for listing, adding, updating, and deleting products with category filtering.
 - **Dynamic Search & Filtering:** Integrated real-time search functionality and sorting options for an enhanced user experience.
 - **Guest Order Tracking & Security Enhancements:** Enabled guest order tracking and later extended the system with secure user authentication, role-based access, and AJAX-driven interactivity.
 - **Deployment:** Successfully deployed the application on Microsoft Azure.
Technologies: C#, ASP.NET Core MVC, PostgreSQL, AJAX, Azure

- **Gomoku (Five in a Row) Game with AI (Java)**

Collaborated in a group project to design and develop an intelligent command-line Gomoku game. Highlights include:

- **Dual Game Modes:** Implemented both two-player (human vs. human) and single-player (human vs. AI) modes.
- **AI Integration:** Developed an AI opponent using the Minimax algorithm based on basic arrays.
- **Game Logic & User Interaction:** Ensured robust game state handling and clear user prompts for a seamless play experience. *Technologies:* Java, basic arrays, Minimax algorithm

TECHNICAL SKILLS

- **Programming Languages:** C#, Java, HTML, CSS, JavaScript, SQL
- **Frameworks & Tools:** ASP.NET Core MVC, AJAX, Microsoft Azure, Git
- **Expertise Areas:** Web Development, Database Management, Full-Stack Fundamentals, Object-Oriented Programming, Agile Methodologies
