JUNIOR CYBERSECURITY ANALYST

PROFESSIONAL SUMMARY

Recent Computer Programming and Analysis graduate from George Brown College with Google cybersecurity coursework and hands-on academic exposure to Linux, SQL, network security, assets, threats, vulnerabilities, and risk management. Skilled in Python, SQL, Linux, Git, databases, network security, cryptography, Docker, Jenkins, and Azure. Seeking junior cybersecurity, security analyst, SOC analyst trainee, or IT security support roles that combine technical troubleshooting, documentation, and secure system practices.

TECHNICAL SKILLS

Security Fundamentals: Network Security, Cryptography, Risk Management, Threat and Vulnerability Analysis, Assets and Controls

Systems & Tools: Linux, SQL, Git, Docker, Jenkins, Azure

Programming & Scripting: Python, Java, JavaScript, C#, SQL

Databases: MySQL, PostgreSQL, MariaDB, Oracle Database, MongoDB, Amazon Redshift

Data & Development: Pandas, Machine Learning with Python, Object-Oriented Programming, Full-Stack Development

CERTIFICATIONS

Google Cybersecurity Certificate Coursework | Google/Coursera

Coursework: Foundations of Cybersecurity; Play It Safe: Manage Security Risks; Connect and Protect: Networks and Network Security; Tools of the Trade: Linux and SQL; Assets, Threats, and Vulnerabilities

SELECTED TECHNICAL PROJECTS

Cybersecurity and Linux Labs | Linux, SQL, Network Security, Threat/Vulnerability Analysis

- Completed hands-on labs covering Linux commands, SQL queries, network security concepts, threat analysis, and security risk management.
- Practiced identifying assets, threats, vulnerabilities, and basic mitigation strategies in security-focused coursework.
- Documented technical observations clearly to support troubleshooting, analysis, and follow-up actions.

Database and Data Analysis Project | Python, Pandas, SQL, MySQL/PostgreSQL

- Analyzed structured datasets using Python, Pandas, and SQL to clean, query, validate, and summarize information.
- Created queries and reports to identify patterns and support data-driven decision-making.
- Applied database management and data quality concepts relevant to security logs, records, and structured information.

Full-Stack Application Development Project | JavaScript, C#, ASP.NET, SQL, Git

- Designed a database-driven application using front-end, back-end, and SQL concepts with attention to reliable data handling.
- Used Git for version control and Agile-style planning to organize features, testing, and updates.

EDUCATION

George Brown College | Toronto, ON

Ontario College Advanced Diploma, Computer Programming and Analysis | Jan 2024 - Apr 2026

Relevant Coursework: Full-Stack Development, Data Structures, Systems Analysis, Agile Development, Database Management, Machine Learning, Mobile Development

PROFESSIONAL EXPERIENCE

Server / Bartender | Oliver & Bonacini Hospitality - Arcadian Venue | Toronto, ON | Apr 2025 - Present

- Provide professional service during corporate, private, and large-scale events in a fast-paced environment.
- Coordinate with team members to maintain smooth event operations and resolve guest needs quickly and professionally.
- Manage multiple priorities under pressure while maintaining clear communication, attention to detail, and reliability.
