JUNIOR FULL-STACK DEVELOPER

PROFESSIONAL SUMMARY

Recent Computer Programming and Analysis graduate from George Brown College with hands-on experience in full-stack development, databases, object-oriented programming, and web technologies. Skilled in JavaScript, C#, ASP.NET, SQL, Python, Java, MongoDB, Git, Docker, Jenkins, Linux, and Azure. Seeking junior full-stack or software developer roles where front-end, back-end, database, and troubleshooting skills can support user-focused applications.

TECHNICAL SKILLS

Full-Stack Development: JavaScript, C#, ASP.NET, SQL, Object-Oriented Programming, Mobile Development

Languages: JavaScript, C#, Python, Java, SQL

Databases: MySQL, PostgreSQL, MariaDB, Oracle Database, MongoDB, Amazon Redshift

Tools & Platforms: Git, Docker, Jenkins, Linux, Azure

Data & Security: Pandas, Machine Learning with Python, Network Security, Cryptography, Risk Management

SELECTED TECHNICAL PROJECTS

Full-Stack Application Development Project | JavaScript, C#, ASP.NET, SQL, Git

- Built a database-driven full-stack application using front-end, back-end, and SQL concepts from the Computer Programming and Analysis program.
- Applied object-oriented programming principles to structure application logic, support maintainability, and organize reusable components.
- Used Git and Agile-style planning to track features, manage updates, and support team-based development workflows.

Database and Data Analysis Project | Python, Pandas, SQL, MySQL/PostgreSQL

- Queried and analyzed structured datasets using SQL, Python, and Pandas to clean, validate, and summarize data.
- Created reports and queries to identify patterns and support decision-making from relational database information.
- Applied relational database design and data management concepts to organize application-ready information.

Cybersecurity and Linux Labs | Linux, SQL, Network Security, Threat/Vulnerability Analysis

- Practiced Linux commands, SQL queries, network security concepts, and basic security risk management in hands-on labs.
- Documented assets, threats, vulnerabilities, and basic mitigation strategies relevant to secure application environments.

EDUCATION

George Brown College | Toronto, ON

Ontario College Advanced Diploma, Computer Programming and Analysis | Jan 2024 - Apr 2026

Relevant Coursework: Full-Stack Development, Data Structures, Systems Analysis, Agile Development, Database Management, Machine Learning, Mobile Development

CERTIFICATIONS

Google Cybersecurity Certificate Coursework | Google/Coursera

Coursework: Foundations of Cybersecurity; Play It Safe: Manage Security Risks; Connect and Protect: Networks and Network Security; Tools of the Trade: Linux and SQL; Assets, Threats, and Vulnerabilities

PROFESSIONAL EXPERIENCE

Server / Bartender | Oliver & Bonacini Hospitality - Arcadian Venue | Toronto, ON | Apr 2025 - Present

- Provide professional service during corporate, private, and large-scale events in a fast-paced environment.
- Coordinate with team members to maintain smooth event operations and resolve guest needs quickly and professionally.
- Manage multiple priorities under pressure while maintaining clear communication, attention to detail, and reliability.
