JUNIOR IT SUPPORT SPECIALIST

PROFESSIONAL SUMMARY

Recent Computer Programming and Analysis graduate from George Brown College with technical training in software development, Linux, SQL, databases, networking fundamentals, and cybersecurity concepts. Skilled in troubleshooting, clear communication, Python, Java, JavaScript, C#, SQL, Git, Linux, Docker, Jenkins, Azure, network security, and risk management. Seeking junior IT support, help desk, technical support, or security support roles that require reliability, customer service, documentation, and technical problem solving.

TECHNICAL SKILLS

IT Support & Troubleshooting: Linux, SQL, Network Security Fundamentals, Risk Management, Technical Documentation

Tools & Platforms: Git, Docker, Jenkins, Azure, Linux

Programming & Databases: Python, Java, JavaScript, C#, SQL, MySQL, PostgreSQL, MongoDB, Oracle Database

Security Fundamentals: Threat and Vulnerability Analysis, Cryptography, Assets and Controls

Development Knowledge: Object-Oriented Programming, Full-Stack Development, Mobile Development, Pandas

SELECTED TECHNICAL PROJECTS

Cybersecurity and Linux Labs | Linux, SQL, Network Security, Threat/Vulnerability Analysis

- Completed hands-on labs using Linux commands, SQL queries, network security concepts, and basic risk management practices.
- Documented technical observations and practiced identifying assets, threats, vulnerabilities, and mitigation strategies.
- Built foundational troubleshooting habits through command-line, database, and security-focused academic exercises.

Full-Stack Application Development Project | JavaScript, C#, ASP.NET, SQL, Git

- Designed and developed a database-driven application using front-end, back-end, and database concepts.
- Used Git for version control and Agile-style planning to organize features, testing, and updates.
- Applied object-oriented programming and SQL concepts to support structured data management.

Database and Data Analysis Project | Python, Pandas, SQL, MySQL/PostgreSQL

- Queried and analyzed structured datasets using Python, Pandas, and SQL to validate and summarize information.
- Created reports to identify patterns and support accurate, data-informed decisions.

EDUCATION

George Brown College | Toronto, ON

Ontario College Advanced Diploma, Computer Programming and Analysis | Jan 2024 - Apr 2026

Relevant Coursework: Full-Stack Development, Data Structures, Systems Analysis, Agile Development, Database Management, Machine Learning, Mobile Development

CERTIFICATIONS

Google Cybersecurity Certificate Coursework | Google/Coursera

Coursework: Foundations of Cybersecurity; Play It Safe: Manage Security Risks; Connect and Protect: Networks and Network Security; Tools of the Trade: Linux and SQL; Assets, Threats, and Vulnerabilities

PROFESSIONAL EXPERIENCE

Server / Bartender | Oliver & Bonacini Hospitality - Arcadian Venue | Toronto, ON | Apr 2025 - Present

- Provide professional service during corporate, private, and large-scale events in a fast-paced environment.
- Coordinate with team members to maintain smooth event operations and resolve guest needs quickly and professionally.
- Manage multiple priorities under pressure while maintaining clear communication, attention to detail, and reliability.
