JUNIOR SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

Recent Computer Programming and Analysis graduate from George Brown College with hands-on academic experience in software engineering, object-oriented programming, databases, web technologies, and secure coding fundamentals. Skilled in Java, Python, JavaScript, C#, SQL, Git, Linux, Docker, Jenkins, Azure, and full-stack application development. Seeking junior software engineering roles focused on building reliable, maintainable, and database-driven applications.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C#, SQL

Software Engineering: Object-Oriented Programming, Data Structures, Debugging, Full-Stack Development, Mobile Development

Databases: MySQL, PostgreSQL, MariaDB, Oracle Database, MongoDB, Amazon Redshift

Tools & Platforms: Git, Docker, Jenkins, Linux, Azure

Security & Data: Network Security, Cryptography, Risk Management, Pandas, Machine Learning with Python

SELECTED TECHNICAL PROJECTS

Full-Stack Application Development Project | JavaScript, C#, ASP.NET, SQL, Git

- Designed and developed a full-stack application using front-end, back-end, and database concepts from the Computer Programming and Analysis program.
- Implemented database-driven features with SQL and object-oriented programming principles to support structured data management.
- Used Git for version control and Agile-style planning to organize features, testing, and updates.

Database and Data Analysis Project | Python, Pandas, SQL, MySQL/PostgreSQL

- Analyzed structured datasets using Python, Pandas, and SQL to clean, query, and summarize information.
- Created queries and reports to identify patterns, validate data quality, and support decision-making.
- Applied relational database design, data structures, and database management concepts.

Cybersecurity and Linux Labs | Linux, SQL, Network Security, Threat/Vulnerability Analysis

- Completed hands-on labs covering Linux commands, SQL queries, network security concepts, threat analysis, and security risk management.
- Documented security observations and practiced identifying common assets, threats, vulnerabilities, and basic mitigation strategies.

EDUCATION

George Brown College | Toronto, ON

Ontario College Advanced Diploma, Computer Programming and Analysis | Jan 2024 - Apr 2026

Relevant Coursework: Full-Stack Development, Data Structures, Systems Analysis, Agile Development, Database Management, Machine Learning, Mobile Development

CERTIFICATIONS

Google Cybersecurity Certificate Coursework | Google/Coursera

Coursework: Foundations of Cybersecurity; Play It Safe: Manage Security Risks; Connect and Protect: Networks and Network Security; Tools of the Trade: Linux and SQL; Assets, Threats, and Vulnerabilities

PROFESSIONAL EXPERIENCE

Server / Bartender | Oliver & Bonacini Hospitality - Arcadian Venue | Toronto, ON | Apr 2025 - Present

- Provide professional service during corporate, private, and large-scale events in a fast-paced environment.
- Coordinate with team members to maintain smooth event operations and resolve guest needs quickly and professionally.
- Manage multiple priorities under pressure while maintaining clear communication, attention to detail, and reliability.

LANGUAGES

Portuguese: Native | English: Professional Proficiency | Spanish: Intermediate
